

A stylized illustration of a natural landscape. On the right side, a waterfall flows down a rocky cliff face. The water is depicted in shades of light blue and white. The cliff is brown and textured. In the background, there are several trees with green foliage in various shades of green. The sky is white.

3

MEASURES ON WASTE MANAGEMENT

"Lots of little people, in little places, doing little things, can change the world."

The phrase is attributed to Eduardo Galeano, although some scholars transfer it to the 18th century to put similar terms in the mouth of Saint John Baptist de La Salle.

Whether one or the other or both, they are words that summarize the heroes who fight for a better world today.

Energy measures on energy efficiency

- The center has replaced all fluorescent lights with leds, in the classrooms, the cafeteria, the laboratory and other facilities.
- Everybody try to turn off all lights when a space is left and minimize the use of points of light redistributing them in a more efficient way in the classroom.
- Also measures regarding the ideal temperature were taken.

At the end of the day, all external lights are turned off.

Students are encouraged to follow the school guidelines.

We make sure our devices and the electrical installation are in good condition

Photovoltaic panels

THE INSTALLATION WAS MADE IN THE FIRST QUARTER OF THIS 2022-23, WHICH WILL ALLOW US TO SAVE €.

DOUBLE WINDOWS

The decision is pending to undertake it or no.

THE HEATING SYSTEM

To use the minimum resources is necessary to maintain the proper temperature in all high school dependencies.

WASTE MANAGEMENT

When it comes to waste management, we've been committed to recycling all the waste generated in the Centre.

PUNTO LIMPIO

Technological and all other type of waste is managed in the "Punto Limpio" (clean spot) of Talavera de la Reina

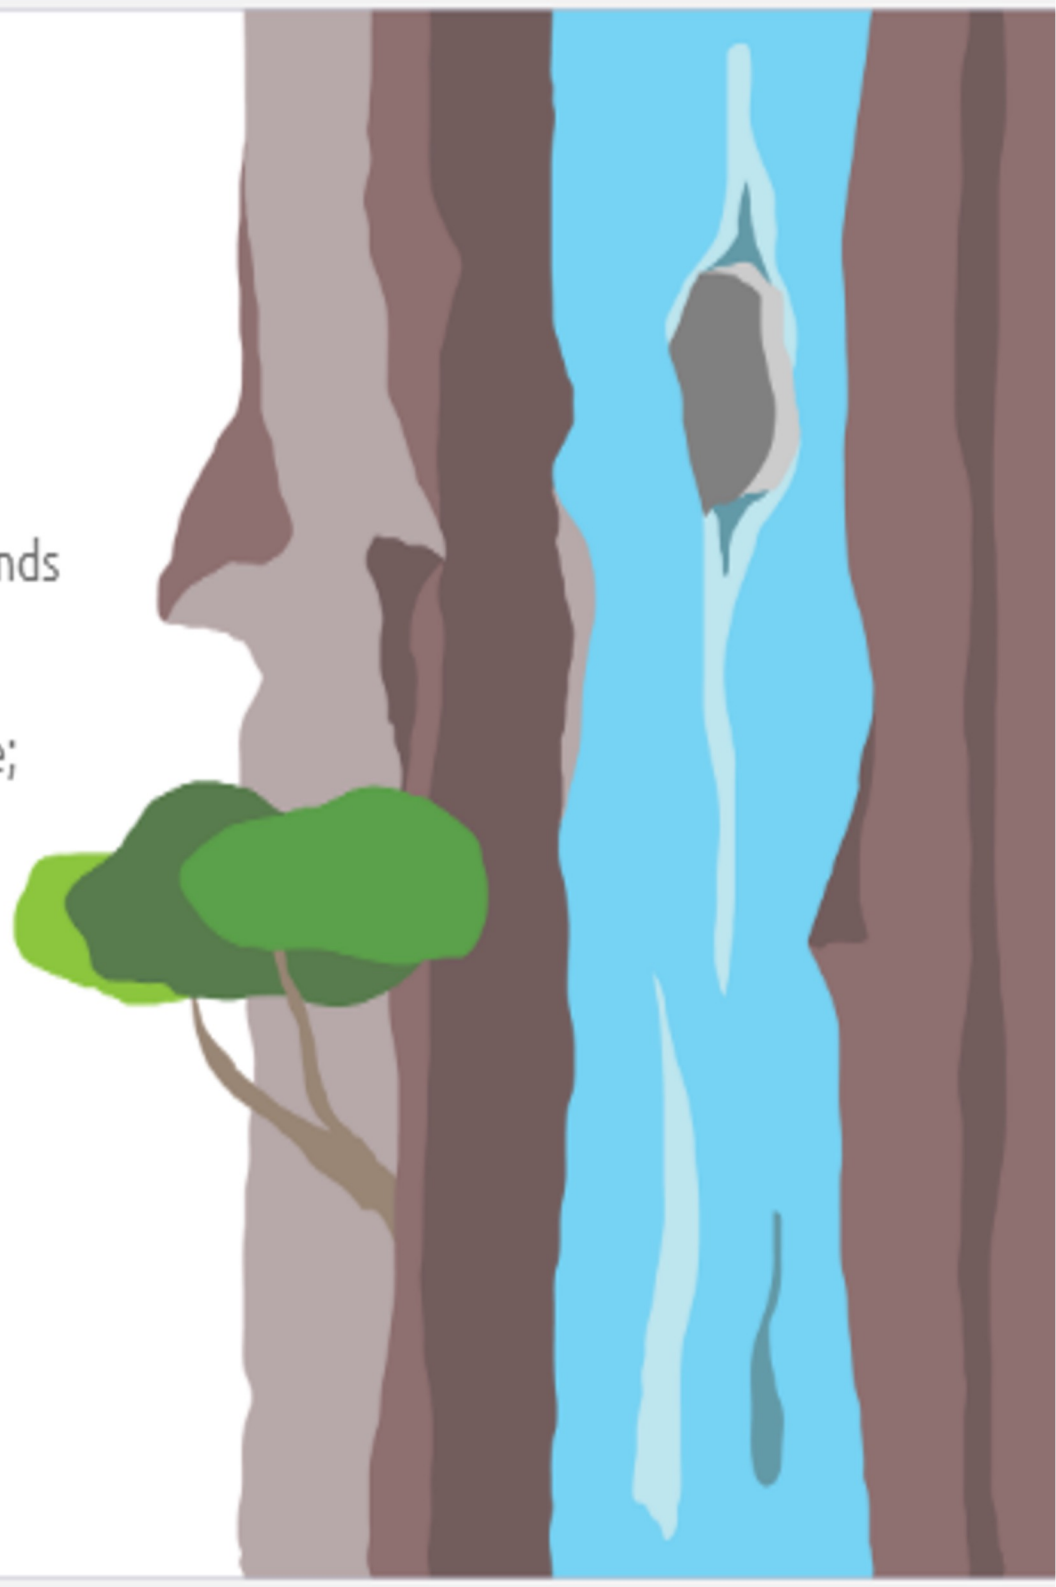

COLLECTION CAMPAIGNS

We have participated in special campaigns with brands like "ECOTIC" and "ECOEMBES".

In which they formed to all the personal of the centre; teachers, workers, administratives, etc.

 **ecotic**

UPGRADE OF EQUIPMENT

When we upgrade the computers, we reuse the old ones to other classes that need it.

We prioritize the classrooms of IT where a new All-in-one equipment has been placed
